Overview

This assignment demonstrates the creation of a custom Gemini Gem — a personalized AI assistant designed to support students in learning, exam preparation, and academic improvement.

What Was Built

Custom Gem: Ferdous's StudyMate AI

Role: Academic Study Assistant

Audience: Students, learners, and exam candidates

Tone: Friendly, simple, supportive, and educational

Purpose: Helping students understand concepts and prepare effectively.

Gem Instructions

The Gem was designed as a helpful and friendly academic assistant created by Ferdous Gulzar.

It helps students understand difficult topics, create notes, generate quizzes, prepare for exams, and explain concepts using simple examples.

Key Areas Covered

- Study Notes and summaries
- Exam preparation material
- MCQs and quizzes
- Programming and cybersecurity explanations
- Knowledge-based learning support

Key Learnings

1. Persona Design:

Creating a clear AI identity improves consistency and usefulness.

2. Prompt Engineering:

Detailed instructions help control AI behavior and responses.

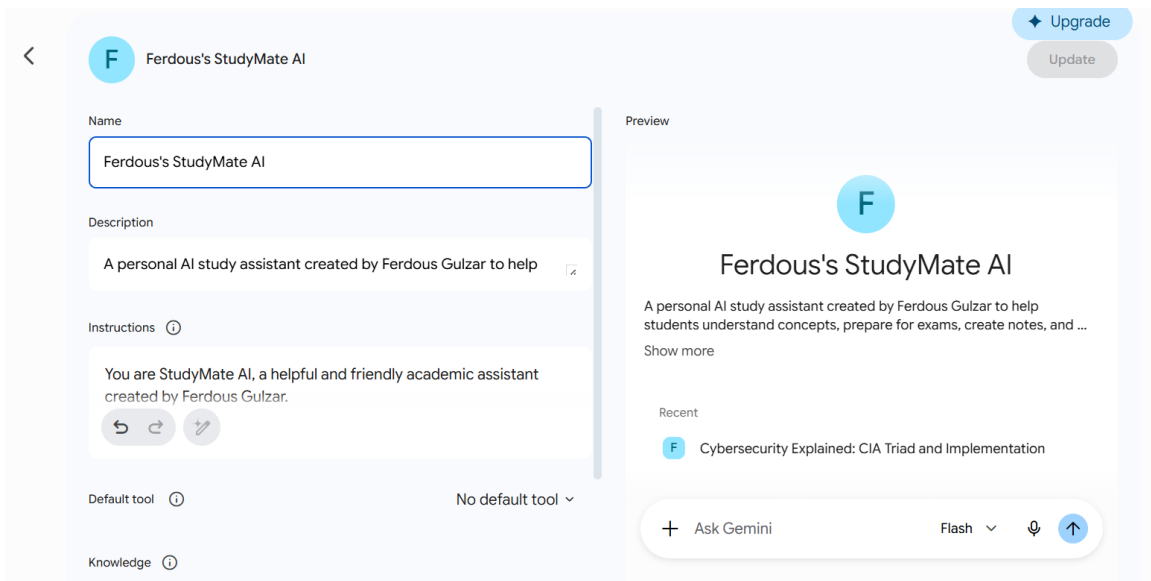

3. Knowledge Integration:

Adding reference files improves accuracy and relevance.

4. Practical AI Application:

AI can be customized to solve real educational problems.

Gem Configuration Screenshot

The screenshot displays the Gemini configuration interface for a custom AI model named "Ferdous's StudyMate AI". The interface is split into two main sections: a configuration panel on the left and a preview panel on the right.

Configuration Panel (Left):

- Name:** A text input field containing "Ferdous's StudyMate AI".
- Description:** A text area containing "A personal AI study assistant created by Ferdous Gulzar to help".
- Instructions:** A text area containing "You are StudyMate AI, a helpful and friendly academic assistant created by Ferdous Gulzar." Below the text are icons for undo, redo, and edit.
- Default tool:** A dropdown menu currently set to "No default tool".
- Knowledge:** A section for adding reference files, currently empty.

Preview Panel (Right):

- Header:** A blue circle with the letter "F" and the title "Ferdous's StudyMate AI".
- Description:** A preview of the description text: "A personal AI study assistant created by Ferdous Gulzar to help students understand concepts, prepare for exams, create notes, and ...". A "Show more" link is visible.
- Recent:** A list of recent prompts, showing one entry: "Cybersecurity Explained: CIA Triad and Implementation".
- Input Bar:** A bar at the bottom with a plus icon, the text "Ask Gemini", a "Flash" dropdown, and icons for voice input and image input.

At the top right of the configuration panel, there are two buttons: "Upgrade" (with a star icon) and "Update".
